

Flue gas spillage detector

°Ctd

Compact, light, practical and always close at hand

Audible and visual alarms

Flexible probe for reaching inaccessible points

Flue gas spillage detector

Tried and trusted quality

The electronic heating measuring instruments from Testo have been used successfully throughout the world over the past 20 years for applications in industry and in the trades.

The new **testo 317-1** electronic spillage detector senses faulty vent conditions immediately.

Risk of poisoning by flue gases

Possible causes of escaping gases could be e.g.:

- leaking flue gas pipes
- thermal overload
- blockages/dirt in the vent system
- defect ventilation vents.

Safety thanks to alarm function

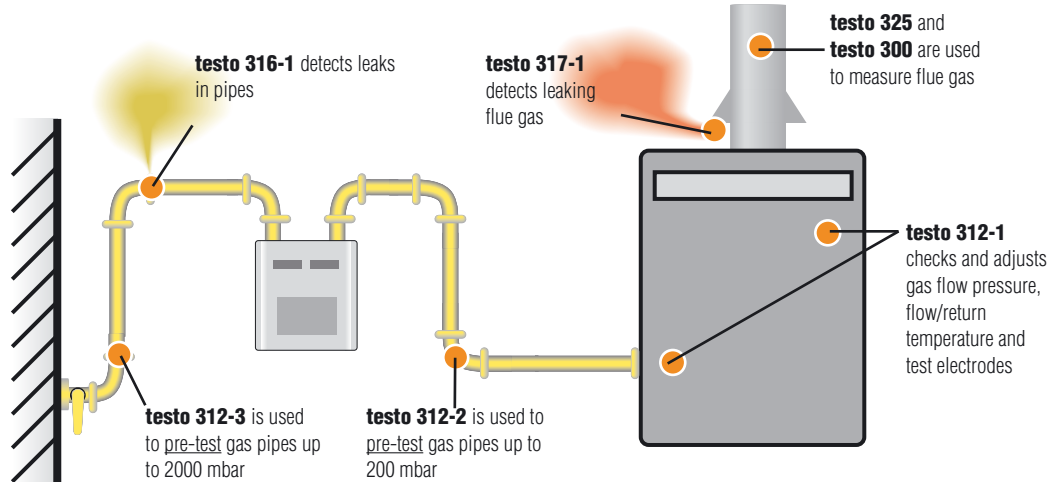

The practical **testo 317-1** immediately gives off a visual and audible alarm once flue gases are detected which means that a visual examination of the measuring instrument is not necessary when inspecting the burner. The bendable probe with the small sensor provides easy access.

Technical data/testo 317-1

Response time:	<2 s
Alarm:	Audible and optical
Operating temp.:	+4 to +45 °C
Storage temp.:	-20 to +50 °C
Dimensions:	128 x 46 x 18 mm (instr.)
Probe length:	247 mm
Power supply:	3 x 1.5 V micro AAA
Warranty:	2 years

A wide range of measuring instruments available for gas heating systems:

testo 317-1

Qty.	You can order by fax. Simply copy this page, enter quantity required and fax to us.	Part no.
	testo 317-1 Electronic spillage detector with flexible probe and visual and audible alarm, including instruction manual and batteries	0632.3170

Additional Testo instruments

Qty.	You can order by fax. Simply copy this page, enter the quantity required and fax to us.	Part no.
	testo 316-1 Gas leak detection instrument	
	testo 316-1 gas leak detection instrument with instruction manual and battery	0632.0316
	TopSafe for gas leak detection instrument, indestructible protection case with stand	0516.0189
	Case for storing testo 316-1	0516.0182
	testo 312 Pressure measuring instrument for gas systems	
	testo 312-1 Comfort pressure measuring instr. for gas heating systems incl. instr. manual and battery	0632.0312
	testo 312-2 Precision pressure measuring instr. up to 40/200 mbar incl. instr. manual and battery	0632.0313
	testo 312-3 Robust pressure meas. instr. up to 300/6000 mbar incl. instruction manual and battery	0632.0314
	TopSafe for precision pressure meas. instr., indestructible protection case with stand	0516.0443
	Case for storing testo 312-1/-2	0516.0191
	For full details request the testo 312-1/-2/-3 brochure	
	testo 325 / testo 300 Professional flue gas measurement technology	
	testo 325 brochure: Affordable electronic flue gas analysis	
	testo 300: The convenient professional instrument
