

NEW & IMPROVED

Cyclone® Bender

**Professional
Grade™**

New pendant control
for easy operation
New Feature

Improved corrosion protection
for increased durability
New Feature

New circuit board
that verifies proper operation
during power up with diagnostics
New Feature

B2000

*In an effort to continue to provide the **best tools** for the electrical contractor market, Gardner Bender introduces **new and improved features** to the **best conduit bender** on the market.*

NEW & IMPROVED

Cyclone® Bender

HAND-OPERATED 12" FISH TAPE

THE B2000 CYCLONE® BENDER JUST GOT BETTER!

Since the original introduction of the B2000 Cyclone® Bender, GB has provided a single easy to use tool for conduit bending. GB's marketing group and engineering group have identified more enhancements to further develop the Cyclone® Bender. In an effort to continue to provide the best tools for the electrical contractor market, Gardner Bender introduces new and improved features to the best conduit bender on the market. The NEW upgrades will enhance the performance of the B2000 Cyclone® bender and demonstrate a leading position in design and serviceability.

GB's design and engineering team continue to use contractor feedback to meet the needs of the market while integrating concepts to make its products **bigger, bolder and better**.

OFFERING

Part #	Description	Weight
B2000	Cyclone® Electric-Powered Production Bender, 115V / 15A	408 lbs.
B2005	Cyclone® Bender Cover , Black (Included with new unit)	2.5 lbs.

NEW Ergonomic Pendant Control
Ease of operation

NEW Circuit Board & Circuit Verification Phase
Guarantees operation

IMPROVED Corrosion Protection
Increased durability

Stronger Legs
Increased durability (10x life test)

Larger Tires/Wheels
Increased mobility

Stronger Upright Handle
Ease of use

Fork Lift Tubes & Hook
Allows lifting & transport capability
Security (job-site) thering

Storage Area
Storage for tools, etc... while in use

Central Pivot Point
Repositioned center for easy positioning

ONE SHOE BENDS 1/2" - 2" CONDUIT... Rigid • Rigid Aluminum • EMT • IMC • PVC-Coated Rigid (in next larger shoe groove)

- One shoe fits all conduit sizes up to 2" with no loose parts.
- On/Off switch allows user to shut
- Hook attachment on pendant control frees hands while working with conduit.
- Horizontal and vertical positions allow the unit to create accurate offset bends.
- Minimal training time required.
- Dimensions: 47" x 33" x 43". down for extended periods of time.
- Low-volt (95), high-volt (132) automatic shut off helps protect electrical components from voltage fluctuations.

CENTERLINE RADIUS CHART

Nominal Size	IMC	PVC Coated Rigid	EMT	Rigid	Stainless Steel
w	1 3/8"	5 3/8"	4 1/4"	4 3/8"	4 3/8"
3/4"	5 5/16"	6 1/2"	5 3/8"	5 5/16"	5 5/16"
1"	6 7/32"	7 27/32"	6 1/2"	6 7/32"	6 7/32"
1 1/4"	7 23/32"	8 3/8"	7 27/32"	7 23/32"	7 23/32"
1 1/2"	8 7/32"	n/a	8 3/8"	8 15/64"	8 15/64"
2"	9 15/32"	n/a	9 27/32"	9 29/64"	9 29/64"

NEW & IMPROVED

Cyclone® Bender

Gardner Bender keeps improving...

*Throughout the years
GB Gardner Bender
has incorporated
state of the art designs
into the development
of its powered equipment
to support the
electrical contractor.*

*We continue to use
contractor feedback
in all our product development
that meet the needs of the market
while integrating concepts
to make our products
bigger, bolder and better.*
