ZipWall®
dust barrier products
The ZipWall Barrier System was invented to provide a quick and easy way to set up a dust barrier. Contractors across all industries have given our products an enthusiastic thumbs-up. Our barrier system sets up in minutes. No tape, no ladders, no damage. It adds a professional touch to the job site.

You’ll find ZipWall products on the job in commercial and residential remodeling settings, as well as in flood restoration, mold remediation, and many other applications.

Since their introduction, ZipWall products have received awards and recognition for innovation and quality. Today our products are available worldwide.

More product information including detailed instructions, can be found on our web site at www.zipwall.com

ZipWall® LLC has obtained U.S Patents: 5524469, 6209615, 6321823, 6508295, 6942004, 6953076, 7108040, 65645, and 7073758 as well as a number of foreign patents. Other U.S. and foreign patents are pending.

ZipPole™ 2 Pack

Foam Rails™ for a tight ceiling seal. Cross bar with soft, spongy edge attaches to the pole. It presses the sheeting firmly against the ceiling. No tape needed.

Side Clamps™ for a tight side-wall seal. Attaches to the Foam Rail and presses the plastic sheeting firmly against the side wall.

Foam Rail 2 Pack
Includes two 5' foot cross bars and two T-Clip adaptors.
Item #FR2

Side Pack
Includes six Side Clamp wall mounts, six 3' Foam Rail cross bars, and a custom bag.
Item #SDPK

Side Clamp 2 Pack
Includes two Side Clamp wall mounts.
Item #SC2
ZipWall Zippers provide quick and easy access in and out of dust barriers. They come in two styles: Standard for indoor use, and Heavy Duty for high traffic areas or where temperatures go below freezing.

**Heavy Duty Zippers** two 7’ self-adhesive zippers, 2 ties, and the patented ZipWall Zipper Knife. This zipper is made from a single cloth backing for greater durability. **Item #HDAZ2**

**Heavy Duty Zipper** is also available in boxes containing one zipper. **Item #HDAZ1**

**ZipWall Standard Zippers** include two 7’ self-adhesive zippers and two cords for tying up a plastic flap. For indoor use only. **Item #AZ2**
While ZipWall is known for its unique products used to create dust barriers, we are also famous for our accessories that turn those products from great ideas into perfect solutions.

**Non-Skid Plate 2 Pack**
Replacement plate has non-skid surface that will not wear out or come off. It keeps ceilings clean and the barrier secure.
*Item #NSP2*

**Head and Plate Pack**
Replacement head, plate, and tether fits all ZipWall poles
*Item #TPH1*

**GripDisk™ 2 Pack**
Holds bottom of pole securely in place on smooth flooring with slick surfaces such as linoleum, marble, or finished hardwood. It will also secure poles when using negative or positive air pressure.
*Item #GD2*

**ZipHook**
This sturdy item can easily be attached to any ZipWall pole. It can hold cables, hoses, gear or anything up to 40 lbs.
*Item #ZHK1*

**Carry Bag**
Sturdy, durable, it can hold up to twelve ZipWall poles or the equivalent mix of other products.
*Item #CB1*
Lead dust must be contained by law as of April 22, 2010

If you are working on a pre-1978 home or child-occupied facility where lead paint is present, you must use dust containment as described in the EPA’s new RRP rule. The reason is clear: Disturbing more than 6 square feet of lead paint can release enough lead dust to cause irreversible health problems for children and for pregnant women.

ZipWall products can help you meet the new lead dust containment requirements. EPA certified contractors throughout the country now use the ZipWall dust barrier system.

OTHER USES FOR ZIPWALL POLES

ZipWall poles are tough. They can hold weights of 70 lbs. or more depending upon the twist to lock it. A very strong twist can support as much as 110 lbs.

Caution: Do not use for anything that could fall and cause injury.

Flood-light support  Holding cabinets  Crown moulding  Sheet-rock support  Adhere ceiling tiles
